

# The Summit Classic

## PORCELAIN ENAMEL FINISH

The Summit Classic wood stoves are beautifully finished with a rich, vitreous porcelain enamel. This porcelain enamel possesses inherent qualities no other appliance finish can offer. It has the durability of steel, the scratch resistance of glass, and is virtually indestructible under everyday household use. And all seven colours are guaranteed for life against fading. No special care is required to maintain its just-like-new appearance – simply wipe clean with a damp cloth. See back cover for more about Porcelain Enamel.

\*\*\* Available as premium colour.

Ash disposal is clean and easy with a removable ash drawer.

The Summit Classic Wood Stove, with patented Extended Burn Technology, has the power to keep you warm and comfortable throughout the night and the stamina to provide a bright, glowing fire with flaming logs to welcome you in the morning.
