

The burner system of this pellet stove is designed to actively manage the waste by-products of combustion. As a result, you can enjoy the longest cleaning intervals of any pellet insert on the market. An added advantage that comes with this burner system is that it allows you to burn not just pellets but alternate fuels - corn, wheat, barley, grass and bark pellets - without changing any parts!

Nicest Pellet Flame in the Industry!
Compare our fire with what you see in other stoves. We think that none can even come close to matching the size, beauty, and efficiency of the M55's flame.

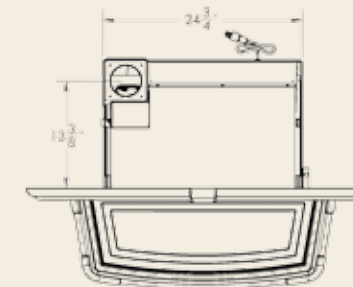

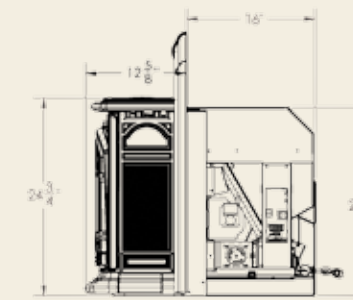

Low Maintenance Burner -
This patent pending technology has an agitator rod in the burn pot that breaks up any clinker or ash and helps move it into the ash pan. This greatly reduces cleaning intervals and also allows you to burn lower quality, inexpensive pellets and alternate fuels.

Large Hopper -
Large 60 lb. hopper for up to 36 hrs. continuous burning time.

Quietest Pellet Stove in the Industry -
Capacitor-driven combustion blower gives very low noise readings - 40 - 45 dB (at 10 ft. away).

SPECIFICATIONS

Convection Fan (variable speed)	200 CFM
Fuel Capacity	60 lbs.
Weight (empty)	480 lbs.
Btu input (on high)*	55,000
Btu input (on low)*	10,000
Ignitor	400 Watt
Max. Power usage (ignitor on)	600 Watt
Operating Power usage	200 Watt
Efficiency Rating	83.5%
EPA	1.0 g/hr Emissions
Area Heated**	up to 2500 sq. ft.
Vent Size	4" or 3" ***
Glass Size	163 sq. in.

FEATURES

- Standard Wall Thermostat
- Air Wash System for cleaner glass
- Mobile Home Approved

OPTIONS

- Wireless Digital Wall Thermostat
- Ceramic Log Set
- Optional Cast Iron Colors - Diamond Black, Chestnut & Beach
(Some colors may have longer lead times)

CLEARANCES

Please refer to the Owner's Manual

Limited Lifetime Warranty

7 years on firebox, heat exchanger and burn pot.
3 years on burner components, 2 years on electrical.
See Owner's Manual for details and exclusions.

Certain restrictions apply when burning corn or grains - please see owner's manual for details and exclusions.

* Figures will vary considerably with individual conditions and fuel quality.
** Figures will vary considerably with floor plan, house layout and heat loss of the house.
*** See Owner's Manual for details.
